- React - Creating and Hosting a Full-Stack Site (2019) : LinkedIn Learning

- Strapi Fundamentals : Strapi Academy
- The Fundamentals of Digital Marketing: Google
- User Experience Design Essentials & Graphic Design Masterclass: Udemy

PERSONAL PROJECTS

QUOTATION MANAGEMENT SYSTEM

(<https://www.meditechsurgical.com>)

- A system specifically designed for B2B businesses to manage product catalog, receive and manage Quotations.
- Developed using NextJS for frontend, KeystoneJS for backend as CMS and GraphQL, deployed on Vercel and DigitalOcean.

ATTENDANCE MANAGEMENT SYSTEM

(<https://attendance.tejeshkalra.com>)

- A beautifully designed app for teachers to seamlessly manage attendance across various courses and modify the data with great flexibility.
- Developed using NextJS for frontend and Strapi with GraphQL plugin as the CMS, deployed on Vercel and Heroku.

BILL SPLIT APP

(<https://billsplit.tejeshkalra.com>) - Only Mobile

- A user-friendly app to split complex bills very easily. Ideally used to split a bill among a large group when split evenly is not an option.
- Developed utilizing the full-stack framework of NextJS with it's own built in API, hosted on Vercel and the JSON file hosted on AWS S3.

CHAT APPLICATION

- WhatsApp like Chat Application developed with NextJS and Node with Next-Auth via Google and WebSockets.
- Used Client side AES encryption where client can store the secret in local storage.
- Used NextJS API to handle backend processing and database connection. Hosted Node server on render to handle websocket connections.

FULL-STACK E-COMMERCE WEBSITE

- A consumer focused E-Commerce Website which is easy to use for both, consumers and the business maintaining their catalog & inventory.
- Developed using ReactJS on front-end, Express & NodeJS on backend, MongoDB for the DB and a third-party authentication service - Auth0.

EDUCATION

RNS INSTITUTE OF TECHNOLOGY

Bachelor of Engineering (2017 - 2021) - Aggregate GPA: 7.68
